Newspapers Have Bargain Days For Balance of 1945

Bargain rate on newspapers started October 1.

This means that the subscribers may renew their Amarillo News and their Canyon News during bargain days for \$11.50 per year until December 31, 1945. After January 1 the rate will be \$13.50 for the two newspapers.

The paper situation is simply this:

Restrictions on the use of newspaper will be lifted on December 31. But this will not increase the supply. As a matter of fact the big daily newspapers in the cities will try to hog the available supply.

The Canyon News has another car of paper coming next month. We have plenty of newsprint for 1946, and there is no restriction on subscriptions. The Canyon News will accept new subscriptions, as well as renewals.

The Amarillo News cannot accept new subscriptions at the present time. Furthermore, those who allow their subscription to expire will simply be out of a daily newspaper until the newsprint situation clears up.

The Canyon News invites you to send or bring your subscriptions to both papers to us at once. Do not run the risk of being out of a daily paper next year.

George Brasuel Out Jap Prison

First Word Received by His Mother Yesterday From Bataan Prisoner

Cpl. George Brasuel is safe and in the hands of American Military authorities.

Mrs. Hattie Brasuel received a telegram from the Adjutant General Wednesday morning in which he stated that George had been released on September 14, that he was in fair condition and would be returned to the states soon.

George was captured on Bataan. His mother has had 8 cards from him during this time. All the cards were form cards and gave her only the satisfaction of knowing that she still had something on which to pin her hopes for his safe return.

Memorial Service Held For Wilfred John Batenhorst

Memorial services were held Tuesday morning, September 25 at 9:00 o'clock at St. Mary's Church at Umbarger, for Wilfred John Batenhorst, M. M. 2-c, who was killed in action in the sinking of the U. S. S. Indianapolis, July 20. Petty Officer Batenhorst had previously been reported missing in action.

Requiem High Mass was sung by Father James Salve assisted by Father J. K. Krukkert and Chaplain A. Ferreri who also preached the sermon.

Honorary pall bearers were 6 service men: his cousin, Leonard Batenhorst; Alvin Friemel, Rudolph Friemel, Jr., Alvin Friemel, Harold Beckman and George Leikus.

Wilfred Batenhorst was born March 24, 1925 at Umbarger. He received his schooling at Umbarger and at Wildorado. He enlisted in the Navy Oct. 10, 1942, received his boot training in San Diego, Calif., then was sent to San Francisco, Calif., where he was assigned to the U. S. S. Indianapolis in April of 1943. He kept that assignment until his death.

When he was home on his last leave, May, 1945, he was wearing 1 silver star and 4 bronze stars, significant of the fact that he had participated in several important battles. Early in 1945 when the U. S. S. Indianapolis was seriously damaged by a Jap suicide bomber, he narrowly escaped death.

Surviving are his parents, Mr. and Mrs. Henry Batenhorst of Wildorado; five brothers—Joseph, H. S. 2-c, stationed on Guam; Henry, Jr., Eugene, James and Gerald; 2 sisters, Margaret and Bernadette; a grandmother, Mrs. Elizabeth Scherb of Cedar Rapids, Nebraska.

Rain Falls In Time For Crop

Great Part of Wheat of 1946 Has Been Planted Is Report From Farmers

Canyon received 1.70 inches of rain over the weekend. Another shower amounting to .10 of an inch fell Tuesday night.

However, this seems to be the lightest report in this section of the Panhandle. Heavier rains were reported all around Canyon. The report from the Southwest part of the county indicates that practically four inches of rain fell during the period.

September rainfall amounted to 2.20 inches, including the 1.70 inches which fell during the weekend.

The total moisture for 1945 was boosted to 11.85 inches. At the end of September, 1944, the total moisture was 25.85 inches.

There is varied opinion about the conditions of the wheat crop. Some farmers planted their wheat early, and in spots where the moisture has been good, this wheat looks excellent.

Many farmers planted their wheat in the dust, and planted deep. The condition of this wheat will depend entirely upon moisture during the coming weeks. If the top of the ground bakes following the splendid rains of this week, a lot of farmers may have to replant.

Those who had not planted—and this number seems to be fairly large—will now get into their fields by the end of this week. It is estimated that thousands of acres will be planted during the coming week, if the weather remains fair.

Most wheat growers believe that the rains came just in time to make the best possible season. It is believed by many that the best wheat is raised when planted about Oct. 10. With continued fair weather practically all of the wheat acreage of Randall county will be in the ground by Oct. 10. The wheat farmers will then be ready for another good rain.

Randall War Drive Starts

Victory Council Will Hold Delayed Session Here This Evening

Randall County's Victory Council will hold a delayed meeting tonight in the committee room of the County Agent's office to complete plans for the third and last Community War Fund drive. The session will begin at 8 p. m.

Canyon drive captains and workers met at the High School Friday evening, but because of muddy roads the farm groups could not attend. Milton Morris, county chairman, presided.

At tonight's meeting, the budget for this final drive will be explained and lists of names will be ready for neighborhood leaders, according to W. H. Upchurch, secretary of the Victory Council. Capt. Olin E. Hinkle, who is on inactive duty from the Air Forces, will speak briefly.

"Be Generous in Victory" is the slogan in this last national war fund drive. End of the war, which has given men of the armed forces more leisure, has increased the demands on war fund agencies in most overseas theaters. Curtailments in some areas have been offset by new demands elsewhere. Victory brought demands from peoples of former German-occupied countries for the Allied Powers to make good their wartime promises of much needed relief.

In the two previous drives, Randall County won state-wide acclaim for support of the national war fund and its 22 war-related agencies. The current, going-out-of-business drive is intended to support these agencies until most of them cease their activities. In addition to financing operation of 3,000 USO clubs and units, the United Seamen's Service, and other activities for the benefit of the American service man, the war fund makes possible regular shipments of food to Greece, China, and European countries which until recently were starved by the Axis; shipments of medical aid and supplies to civilian populations of these countries; sending of clothing to those who have lost their homes; providing of seed for replanting; and giving assistance to war-displaced refugees. Such relief, extended in areas occupied by American troops, makes the work of these service men much easier and safer.

"American military forces and our allies have won the war; we cannot let them down now," said Chairman Morris.

Freeze Almost Hit the Plains

Drop to 33 Degrees After High Temperature For the First Part of September

The temperature dropped to 33 degrees above zero Friday morning. This is the coldest temperature ever recorded in this section, lacking only one degree of going down to freezing.

The cold wave swept in from the north, with snow in the mountain region. Stoves were set up hurriedly, following the high temperature of the previous week when the temperature ranged to near 100 degrees.

It is fortunate that no damage was done by the unseasonable weather, which hit for the close of the month.

The weather man predicts that the temperature will again be near normal by the end of the week.

Only Four Jurors Selected For Murder Trial

At noon Wednesday only four jurors had been accepted for the murder trial of Marian Thompson, transferred here from Potter county. He is charged with the murder of Lem Savage, Amarillo detective. Thompson and Elbert Day are serving federal sentences and were brought here from Leavenworth by federal officers. They are chained as they sit in the court room.

The charge against Day was dismissed when the case was called Tuesday.

A special venire of 220 men faced Judge Henry S. Bishop when the case opened. In order to get the four jurors, 200 men were examined up to noon Wednesday. Only 20 names were remaining.

It was predicted at the court house at noon that when the special venire is exhausted that the defense attorneys would ask for a change of venue from Randall county since there is slight hope of being able to secure a jury here. As The News goes to press early Wednesday afternoon the case is still before the court.

NATIONAL NEWSPAPER WEEK

This is the 6th Annual National Newspaper Week. For five preceding years, The Canyon News has faithfully observed this week by publishing 12 and 18-page editions. We could not do it this year. There were simply not enough hours to get out a special section of The News devoted to this event.

Very frankly, the end of the war leaves us with less help than we have had since it started. And, incidentally, there is more work that should be done. We are not making this statement in the vain hope that readers will come in and cry on our shoulders. We are not seeking sympathy, but just a little more indulgence.

We believe that before many more weeks the armed forces will discharge a sufficient number of men so that we can get some help here at The News office. Until such a time, we shall carry on to the best of our ability.

Securing a sufficient amount of usable paper is another headache which catches us on this Annual Newspaper Week. Government restrictions have been lifted—but just try buying paper, and you will find that raising restrictions has in no manner increased the stock. We have less of certain kinds of paper right now than we have had in years, with no chance to build up a stock pile. That's just our hard luck, in which you may be interested, but there is nothing that the reader can do about it.

The newspapers have fought a valiant fight during the war. Every publisher has been on the battle front, backing the various agencies which were needed to win the war. The newspapers have sought no bouquets for their part in this fight. They are seeking no undue credit. But they would like for the public to be mindful of the difficult times through which they have passed and the loyal support which they have given during the war. The press has given ardent support to all war agencies, and without this support many of these undertakings would have failed, completely failed.

A brighter day is in prospect. The newspapers have weathered the storm of war. They will merge stronger than ever before. Normal times will be resumed when more help, better materials and good machinery again becomes available.

So far as The News is concerned, we are proud of our profession. It has been kind to us, and we hope that we have achieved something worthwhile during the years that have passed. When another Annual National Newspaper Week rolls around, we hope that The News will be able to more adequately present the subject.

The isolationist pendulum is swinging. No less personage than the President warns that the nation must not accept isolationism and again throw away the peace. While this swing toward isolationism is deplorable, it is entirely understandable. Americans have been taught to believe that our two oceans were ironclad barriers. We have never been invaded. Rowdism at football games is being experienced in many towns. Police officers are frank in admitting that liquor is at the bottom of most of these disturbances. The ugly fact is that we are reaping just what we have been sowing. When Roosevelt became President, he advocated that if liquor was voted back that he would balance the budget and pay the national debt. We were going to drink ourselves back into national prosperity. Of course everyone knows just how badly we have failed. Sugar has been used to make liquor when it was needed on the tables of the nation. Prohibition is an unpopular question with the politicians. It would take a superman to really interest the people in attempting to curb this menace.

Few Americans had the least idea that being Emperor of Japan was such a soft job. It is now revealed that one cannot do business in Japan without playing high tribute to the man who is supposed to be the king pin of the universe. The Emperor owns a big slice of every business enterprise in the kingdom. Before anyone may start a business in Japan he must give a large hunk of the stock to the old boy. As a result it takes a small army of clerks and accountants to keep up with the Emperor's vast estate and holdings. No wonder the people of Japan are so poor and have such low standards of living.

Without reflection on MacArthur, it seems that Eisenhower is much more susceptible to public opinion. Patton has the reputation of being hard boiled; and he talked too much about his policy of keeping the key Nazi officials in office. Eisenhower immediately called Patton on the carpet for an explanation. It seems that Eisenhower is willing to delegate power to his subordinates to a greater degree than MacArthur. However, the sphere of the two men is so different that comparisons are practically impossible.

Canyon has lost several good business prospects simply because there were no business houses available. West Texas State lost 300 or more students this fall simply for the lack of housing facilities. Canyon has lost many good families who wished to move here but could find neither rent houses, nor could buy any homes. Many citizens would like to build, but find that neither material nor labor may be secured at any price. The situation in Canyon is the same in practically every town in the nation. Where are all of these people coming from; and why is there not a surplus of homes away from war industries?

We are not so badly alarmed over domestic conditions as lots of folks profess to be. While we are going through tragic labor disputes, we take it that this is the natural result of the long national pull during which there has been more than unusual national unity. We fought the war almost as a united nation. Now that the war is over there is

a tendency to kick over the traces. During the war most people felt that they should do everything that they were told to do without asking questions. That time is past. After we get over our big mad spree, American sense should tell us to settle down and go to work again.

The hardest drives now face the nation. A lot of people cannot see the necessity for the United War Drive; the coming Red Cross Drive; and the Victory Loan Drive. They are badly mistaken in this position. The war is not over for millions of men, and will not be over until peace is written. It takes more money to keep men happy when they are not in battle than when the fighting is on. We must support these coming drives, and not let the boys down who will still be in uniform for months to come.

Well the Emperor called on General MacArthur, and the Japs are boiling mad over the event. According to their reasoning, MacArthur should have called on the Emperor, and should have done the bowing and scraping act. While the Japs may not realize that they are whipped, either the Emperor has more sense than we attributed him with having, or is the biggest double crosser in the world. If he is planning to slip a knife in the back of MacArthur, we believe that he will be greatly disappointed.

The Russians are good poker players. They realize just how much they are distrusted, and actually disliked, by other nations. As a result they are asking for much more than they expect to get at the peace table. We do not believe that Stalin is fool enough to block a program of permanent peace just to get his way, but he is going to be sure to get all that is coming to Russia, come what may.

We heard the other day that seven out of eight discharged veterans are dropping their war insurance. That is a great mistake. Don't do it, boys. You will need insurance as the years go by, and you will never get such cheap insurance again.

TOUGHEST FIGHTER on the Home Front!

Your local newspaper has had a real job in wartime—fighting on the home front as real and deadly enemies as were met on the battlefield. It waged daily war against them—some visible evils—others invisible and more insidious because unseen. It fought selfishness, avarice, indolence, complacency . . . with ideas, information, education in the democratic way of living. In World War II it took a stronger and more important place than ever. It backed every war effort 100% in editorials, news reports, advertisements. It went all-out for Victory by encouraging local efforts to conform to the adjustments necessary to wartime living. It did a big job in educating the public to the importance of sharing, working, giving, and coordinating all attempts with the final purpose of Victorious Peace in mind. It promoted this day-by-day Americanism until it became an ideal for all. It did this willingly—gladly—enthusiastically—with pens sharpened by the realization that America is today one of the few countries where this is still possible voluntarily. And Americans caught on. They are behind the effort wholeheartedly—they bought Bonds, they collected scrap, they accepted rationing cheerfully and willingly, they gave up peacetime activities for wartime jobs, they gave their children to the country's service. Behind them . . . serving them with greater strength and force than ever before . . . keeping them in the paths of Americanism and Victory . . . was and is the newspaper.

Notes From The County H. D. Agent

The Home Demonstration Club women of the county are making final plans for their harvest fair which is to be held in Canyon Saturday, October 13. Announcements as to place and hours will be made in next week's paper.

During the past year the women and girls of the 4-H Clubs have been busy helping with the work that had to be done because of the shortage of farm labor. They have also had time to make many lovely articles for their homes, and have made many interesting things from feed sacks, which were among the few materials available for use this past year. Tufted bedspreads, articles made from sacks, food exhibits will be among the interesting things shown.

The public is cordially invited to attend this exhibit. In fact, we feel that those persons who do not come will definitely miss something.

Along with the fair there will be a country store at which many articles from the country homes will be sold. Baked products, aprons, fresh eggs, dressed chickens, printed feed sacks, are among the things that you can look for there.

Watch for further announcements in next week's paper and make your plans to come.

'Secret' Airline to Sweden Saves 3,000

U. S. Army Planes Operated Under Noses of Nazis.

LONDON.—More than 3,000 important passengers were flown out of neutral Sweden during the last year of the European war by the U. S. army's "secret" airline which operated under the noses of the Germans.

It was one of the strangest military operations of the war and the Germans employed every trick they knew to stop it, but without avail.

Some secrets of this mysterious pseudo-civil airline, which now has blossomed into a full-fledged military line between Scotland and Sweden, were revealed by Brig. Gen. Earl S. Hoag, commander of the European division of the Air Transport command, the agency designated to handle the job. Most of the flying had been scheduled purposely in bad weather.

The airmen, disguised as civilians, had become so accustomed to being shadowed by Gestapo agents in Stockholm that they didn't even bother locking their hotel rooms at night. They were followed everywhere, and their every move was noted by Nazi agents.

Among the passengers were hundreds of interned American airmen, Norwegian soldiers, diplomats, interned nationals and high officials of many governments, including Norwegian, French, Dutch and Russian. On one occasion the personnel of the Norwegian government in exile was flown from London to Sweden.

General Hoag disclosed that one of the most daring operations was the evacuation of some 2,000 trained Norwegian soldiers across German-occupied Norway to Britain, just prior to the invasion of France.

The Swedish government, after negotiations, had approved the release of the Norwegians, but just about the time the first flight was scheduled, it was discovered the Germans had learned of the plan and had started counter-measures.

The Germans alerted at least 250 Luftwaffe night fighters at fields in southern Norway, and had all suspected routes bristling with anti-aircraft and coastal defense guns. But they failed to shoot down a single plane during the operation, which extended over a period of several weeks.

Finds U. S. Public Wants

5,852,000 Refrigerators

WASHINGTON, D. C. — The public wants to buy 5,852,000 mechanical refrigerators, 4,501,000 vacuum cleaners, 3,451,000 sewing machines, 5,085,000 radios, 5,195,000 electric irons, 5,835,000 washing machines.

The war production board's office of civilian requirements says it knows the figures as a result of a nation-wide survey conducted for it by the census bureau.

The demand for these items has increased 25 to 100 per cent in the last year.

U. S. Navy Attack Bomber Crashes and Explodes

TOLEDO, OHIO. — A navy attack bomber, out of control after its pilot had bailed out, crashed and exploded 300 feet from the home of Robert A. Stranahan Jr.

The pilot, identified as Ens. Kenneth Baldwin, 22, St. Louis, stationed at Grosse Ile naval air station, parachuted to the fairway of the Sylvania Country club, two miles from where the plane crashed.

He landed near a physician, who stopped playing golf to treat him for head and leg cuts.

One Day Proves a Lot

In the Life of a Tot

WORCESTER, MASS.—A soldier's wife telephoned the Worcester Gazette to inquire whether she and her baby could have their pictures taken for the paper's V-photo column.

"Certainly," replied an editor, "can you come in today?"

"No, I can't come today," the woman replied. "The baby's too young."

"Well, how about tomorrow?" kidded the editor.

"Oh, that will be fine," was the response.

U. S. Airmen to Accept British Memorial Plan

LONDON. — The 375th fighter group of the United States 8th air force has accepted a tract from Sir Guy Hambling for a memorial to the fliers' 14 months of combat operations. The land in Yoxford, Suffolk, from which the squadron flew, will be the site of a building preserving mementos of the group. Money, material and labor will be donated by personnel of the group.

Women Pitch In, Load

Scrap Tin for Salvage

FRANKFORT, KY.—A hastily recruited group of Frankfort women tossed aside their powder puffs, let their housework and social affairs go and pitched in recently to load 40 tons of scrap tin for shipment to a salvage center. The group of 10 volunteered after County Judge L. Boone Hamilton's plea for workers to load the railroad car produced only a 70-year-old man and a Boy Scout.

Lead is generally found throughout the world.

A FREE PEOPLE . . A FREE PRESS

The American People Are Not Dumb

We Americans have never, in the dictionary sense, been dumb. We are extremely vocal. When we don't like something, we say so. We tell our neighbor; we wire our Congressman and; probably most significant, we write a letter to our newspaper—a good many million of us every year.

We are not dumb. We have never lost the use of our vocal chords. We know we're in the driver's seat, we know we run the country. We're awfully cranky and when something displeases us, we're quick to tell the world. That's why we get things done.

In the good old U. S. A. slang sense, we Americans aren't dumb either. We know that the right to express ourselves didn't just happen. It was fought for. It was paid for in tears and in blood and we have guarded it jealously through the years.

We are not dumb. We know that our precious freedoms and liberties, the right to think, vote, travel, earn and worship as we please, are safe only so long as we Americans are free to read, write and publish what we please, through our newspapers. We know that of all our freedoms, the freedom of the press is the most important. We know that it guards every other liberty and that without it we would live in darkness, a prey to any demagogue's whim.

We Americans are not dumb. As long as we value our rights and our liberties we shall steadfastly resist any attempt by private interests or public authority to encroach upon our free newspapers. For the right to read is the right to know—to be informed. Because all our other rights depend on it, it is the one right most worth defending.

Dr. Hill Attends Inauguration of Sul Ross Prexy

Dr. Morelock will continue to live in Alpine.

Reconstruction of German Mind Was Rotary Subject

Dr. A. M. Meyer spoke at the Rotary luncheon Tuesday on the reconstruction of the German mind in order to guarantee peace for Europe in the future. This was pronounced the biggest task of reforming mass psychology that has ever been undertaken in the history of the world.

Dr. Meyer pointed out the following steps that would be necessary, according to students of the big problem:

1. Strict control of the radio and press of Germany.
2. Reopening the elementary schools with revised textbooks.
3. De-Nazifying of the local government.

It was pointed out that the United Nations must start with the children of Germany in teaching Democracy, just as Hitler started with them in his Nazi campaign.

To carry out this program three steps are necessary:

1. We must not go on with a feeling of resentment; not pose as liberators; do nothing that our type of Democracy does not approve.
2. Do not go with a religious mission.
3. Do not go as judges to condemn the people.

Students point to the fact that millions of Germans were not Hitler followers, but were forced to do his bidding or get out. They had no choice and, therefore, stayed to do the best they could. These should be used. Hitler created a moral vacuum. We must replace it with a moral code.

Dr. Meyer believes that German universities must remain closed for the present. Teaching the children; enlightening the youth; giving adult education will go a long way. He believes that an exchange of students will help greatly. Our students could show them the Democracy way; while German students coming here could tell us of the horrors of Hitler.

Dan F. Sanders was introduced as a new member of the club.

Visitors were: Rev. M. G. Upton of Wildorado; Tommie Godfrey of Fort Worth; Lyle Bonner, Bob Killgore, O. D. Mosley, Major Vincent Lockhart, all of Canyon; Rev. J. O. Quattlebaum of Stamford; John E. Hill, U. N. Oliver, J. Francis Brown, Earl O'Keefe, Guy A. Carlander, all of Amarillo; Olin R. Terry of Pampa.

C. A. Murray reported on the intercity meeting held at Lubbock last Wednesday night which was attended by Mr. Murray, Doug Shirley, Virgil Henson, Harris M. Cook, J. B. Speer, Roy Holland, J. W. Shook and Stuart Condon.

David Harum cynically but humorously said: "Do unto the other fellow as he would do unto you—and do it fust."

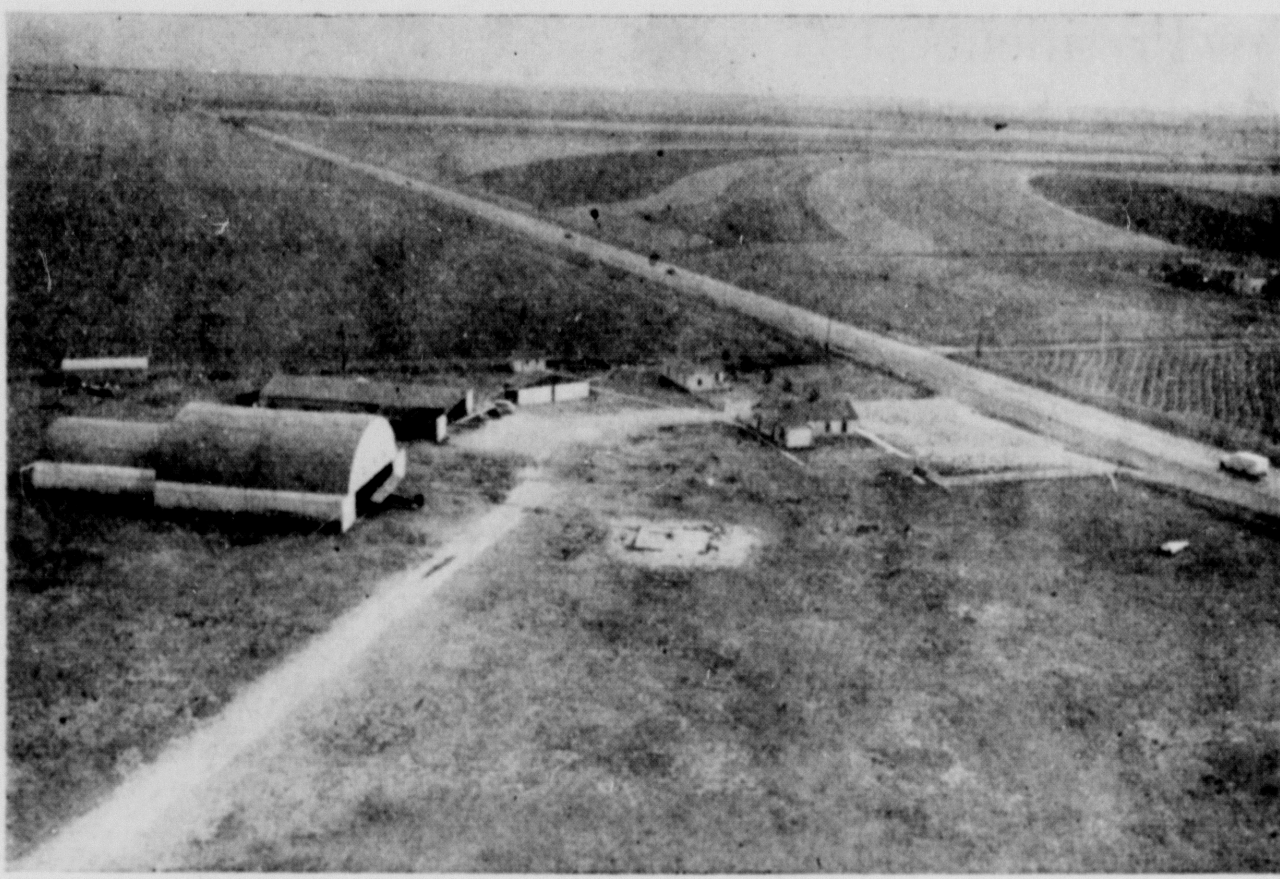

Of all the affectations of speech, the free, frilly and fancy over-use of "oneself" is about the worst. Instead of saying, "A man should be careful of his speech lest he give offense," your purist goes off the deep end thusly and to-wit, or maybe halfwit: "One should be careful of one's choice of words lest one give offense to one's listeners."

"There's just two things the matter with that horse," the owner said to a man who was thinking about buying the animal.

"What are they?" the prospective purchaser asked.

"I'll tell you what one of them is and, if you buy him, I'll tell you the other one then," the owner replied. The prospect agreed.

"The first fault is that he's hard to catch."

"Well, I'm pretty active; I can catch him all right; here's your money; now, what's his other fault?"

The man pocketed the money and as he edged away he answered, "In the first place, as I said, he's hard to catch and, in the second place, he ain't worth a darn after you catch him."

Three Former Athletes Are Back In W. T. After Military Careers

Three more of West Texas State's athletic stars are enrolled again and ready to start classes after serving several years in the armed forces.

Borden Price, former 1940 basketball captain, received his discharge on September 5. He was a bombardier on a B-29 in the Pacific theater. Price is re-entering college as a senior and plans to continue playing basketball this year.

"It's been a long time, but I'm anxious to get started again," Price says concerning how he feels toward coming back to school. His home is in Olton.

An ex-center on the Buffalo football team is Jack Edmondson of Pampa. He was in the service five years as an instructor in the air corps. Edmondson attended school here from 1936 to 1940, playing one year on the freshman squad and three years varsity football. He is

working on the M. A. degree this year.

Edmondson says, "I want to hurry and get back into the swing of things."

Glenn Bunch from Stanton was a freshman in W. T. in 1942. He was active on the freshman football team and was majoring in agriculture. Bunch took part in several Pacific engagements. He was wounded in the Okinawa campaign. He recently received his discharge and has come back to W. T. to complete his education.

Carson Most Active County in Chapel Drive

Contributions to the building fund for the West Texas State chapel are being received every day by President J. A. Hill.

County organizations are being formed to hasten the attainment of the \$50,000 goal. Slightly more than \$15,000 in cash and pledges is in hand.

Of the counties, Carson is currently the most active. At Panhandle, a campaign committee is composed of Mrs. Fred Surratt, chairman, Supt. Kellus Turner, Mrs. W. W. Evans, Mrs. E. B. Craig, and David M. Warren. At White Deer, Dalton Ford heads a committee whose other members include Mrs. J. C. Freeman, Mrs. E. H. Grimes and Mrs. Frank Evans.

When completed, the campus chapel will be the scene of religious services, recitals, weddings, pastor-student conferences, religious lectures, and other activities, which will be scheduled so that they will not conflict with the programs of local churches.

Few Presidents Address Senate

Truman Only 4th to Talk To Senators in Their Present Chamber.

By WALTER A. SHEAD

WASHINGTON. — When Pres. Harry S. Truman stepped to the rostrum in the senate chamber of the capitol building to deliver the United Nations Charter to the president of the senate, he was only the fifth president in the 169-year history of the nation ever to appear before the senate body, according to senate historians.

As a matter of fact, he was only the fourth president to address the senate in the present senate chamber.

President Washington addressed the senate of the first congress on August 22, 1789, meeting in New York. His subject was a discussion of Indian affairs.

No other president ever addressed the senate until President Wilson stood on the same spot 26 years ago, lacking nine days, to deliver the Treaty of Versailles and the League of Nations covenant. The date was July 10, 1919.

Then on July 12, 1921, President Harding addressed the senate of the United States in his memorable speech opposing the bonus for veterans of World War I.

Hoover, Then Truman.

On March 31, 1932, President Hoover, with the doom of depression settling upon the nation, discussed the economic situation of the country from the senate rostrum. And on July 2, 1945, President Truman made his historic appearance with the United Nations charter for keeping the peace of the world.

Only four senators were there who were in the senate when Wilson made his unsuccessful plea for ratification 26 years ago. They were: McKeller of Tennessee, and Gerry of Rhode Island, both Democrats, who voted for unconditional ratification of the League of Nations; Walsh of Massachusetts, Democrat, who voted against ratification, and Hiram Johnson of California and Arthur Capper of Kansas, both Republicans, voting against ratification.

The wheel of history, however, has made a change in the thinking of the nation. Where Wilson was received, in the words of a contemporary historian, in "bleak and chill austerity," Truman was greeted with cheers and bursts of applause and with assurance that the charter will be ratified.

How Different.

The spirit of friendliness was evident in the packed galleries where the applause was in the nature of an ovation. The President, evidently also in a friendly mood, departed some from his short script for asides of good humored comment, and, on his way out, shook hands with the senators seated along the aisles.

These included Senator Wheeler of Montana, outstanding isolationist, and Walsh of Massachusetts. He also grasped the hands of the Republicans along the aisle, White of Maine . . . and he went out with his ready smile and a light step.

In contrast, Wilson, seeking the same goal, peace among nations, went back to the White House broken-hearted, a sick and disappointed man . . . but his ideal has become reality . . . a quarter of a century later.

Hungary Agrees to Pay Russians \$200,000,000

LONDON. — The Moscow radio said that Hungary had signed an agreement to pay the Soviet Union war indemnities amounting to 200 million dollars. Hungary's payments will take the form of deliveries of machine equipment, ships, grain and cattle periodically until January 20, 1951, the broadcast said.

Gold Pen, Churchill Gift, Given to Marshal Stalin

LONDON.—Mrs. Winston Churchill, who recently visited Russia, said that she presented Marshal Stalin with a gold fountain pen as a gift from the prime minister, who had said he hoped Stalin would write him "many friendly messages with it."

"Marshal Stalin accepted it with a genial smile," Mrs. Churchill said.

Jap Soldier Gives Up, Wants to 'Settle Down'

MANILA, P. I. — A Japanese corporal surrendered meekly to a 41st division patrol in the Zamboanga campaign. "After four years in the imperial army, I decided there was no future for me," he explained. "And the land looked so good, I thought I'd surrender and settle down on one of these farms."

Much Wine in Store For Hungry Rhineland UNITED STATES 15TH ARMY HEADQUARTERS. — Germans along the Rhine and Moselle rivers may not have enough to eat this fall, but the grape crop will be 50 per cent above normal. Completely processed, it should make about 158,000,000 quarts of wine. Occupation authorities have until October to find enough bottles and corks.

Zinc is a metallic ore usually found with lead.

"Hurry, Beth... let's see the NEW QUALITY OF LIVING that makes your house cozy in winter ...cool in summer!"

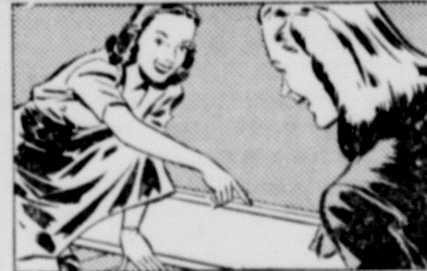

"I just flick my finger," Beth explained when we got to her house, "and presto!—in winter, it's comfortably warm, humidified—whether it's cool or below zero out. Yes, we've a NEW QUALITY OF LIVING . . ."

"On hot summer days, it's never hot or steamy indoors. In fact, I hardly mind doing dishes! The house is cooled delightfully and has humidity taken out. Oh, we're lucky to have a Servel All-Year Gas Air Conditioner."

"Never a draft either. There's live clean air circulating gently, all the time. We all sleep better, too, because street noises are shut out. With our Servel All-Year Gas Air Conditioner, we needn't open windows. And . . ."

"Seel No dust! Dirt and soot and even pollen (remember my hay fever?) are filtered out. Our Servel All-Year Gas Air Conditioner saves me hours of cleaning time—makes drapes and furniture last longer, too."

"This simple unit does it all," Beth told me. "We've had it four years and wouldn't be without it!" Was I envious! "Beth," I said, "soon's the war's over, I want to have Servel All-Year Gas Air Conditioning!"

Like Beth, the hundreds of home owners who installed Servel All-Year Gas Air Conditioners before the war are enthusiastic. After four years' use, they say, "We wouldn't be without it. It's wonderful!"

You can plan on it—post-war . . . Imagine! Blustery winters, blistering summers, you'll choose your own indoor climate with Servel All-Year Gas Air Conditioning. Come in and let us tell you more about it.

MAKE A DATE FOR REPAIR WORK

Why make a date for repair work? We have a task before us to get your old machinery ready for the new season. If you will bring that machine in now before you need it and get it ready, you will save yourself worry and delay.

Our stock of parts is rather complete. Our mechanics are expert. We have several farm implements in the shop now and several on the list to be brought in as soon as these are moved out.

Come in and let us list your machines so that they will be completely renovated for you.

New machines are coming very slowly. Strikes may make them slower. Internationals will still give you service, but they must be repaired, as you well know.

Assistant Coach W. W. Nicklaus (left) and Head Coach W. A. Miller, pleased by the fine spirit of their injury-depleted squad, are expecting a win over New Mexico U. here Saturday night. But it will be a very hard game. Game time will be 7:30 p. m.

Bufs to Need Lot o' Steam

New Mexico U. Will Bring Fine Team Here on Saturday

The Lobos of the University of New Mexico will be West Texas State's opposition here next Saturday night.

This is a game the Bufs have been waiting for—a contest in which the odds will not be so heavily against them. Oh will they? According to the N. M. U. student newspaper, the Lobos have the best prospects of recent years. They expect a good season.

A direct comparison was afforded in the games of the two teams with Eastern New Mexico College. West Texas beat the Greyhounds by a score of 56 to 7. The Lobos accomplished this results by a score of 75-0.

Because of injuries suffered recently, the Bufs will need to be an inspired team to beat the Lobos this year. Last season they won at Albuquerque, 19 to 12.

Bufs Lost to Tulsa 32 to 0

West Texas Give Oklahomans Harder Game Than Expected

The Tulsa University Golden Hurricane came through as victor over the West Texas State Buffaloes Saturday night in Tulsa as both teams romped up and down the rain-soaked field. The Buffaloes surprised the Tulsa eleven as they managed to hold the Hurricane to a score of 12-0 in the first half. In the final quarter the West Texans held off the hard driving Oklahomans for no score.

The Hurricane scored six points in the first quarter, six more in the second period, and twenty in the third. The Bufs threatened to score twice and one of these times drove down to the Tulsa one-yard line. Tulsa fans cheered the Bufs' fighting spirit.

Few people knew before the game that the Buffaloes journeyed to Tulsa's Skelly Stadium without the aid of several key players. Willard Hedges, W. T. back, was in the Veterans Hospital suffering from a recurring hip ailment. Lloyd Johnson, promising Freshman end, has a weak ankle, and Kenneth Glasgow may be out the remainder of the season. Glasgow, known on the campus as "Moose," has been in St. Anthony's for treatment of a cheek bone fracture received in scrimmage last week. Johnson and Hedges are expected back in the line-up soon.

Despite cold rain and wind, the W. T. Calves out-scored and out-played the Tulia Hornets at Tulia Friday night, 7 to 6.

Early in the first quarter "Zeke" Jennings galloped around end for the only W. T. touchdown. "Zeke" also carried the extra point across.

The Hornets made their touchdown in the second quarter with Neal Frye carrying the ball. Jackie

Ramsey tried to drop-kick the extra point but failed.

The third quarter brought many center plunges by the Hornets, but our line and backs just would not give.

Late in the last quarter, the Hornets tried their final pass in an attempt to score, but "Zeke" intercepted.

Thus ended a long wet victorious game. Despite the rough schedule ahead the Calves are still climbing.

An Irish gentleman lying on his deathbed, was questioned by his inconsolable prospective widow. "Poor Mike," said she, "is there anything that wud make ye comfortable? Anythin' ye ask for I'll get for ye."

"Plase, Bridget," he responded. I t'ink I'd like a wee taste of the ham I smell a-boiling in the kitchen."

"Arrah, go on," responded Bridget. "Divil a bit of that ham y'll git. Tis for the wake."

A famous preacher once remarked to his congregation that every blade of grass was a sermon.

A few days later he was engaged in mowing his lawn, when a witty member passed by, and remarked, "That's right, doctor, cut your sermons short."

"Darling, I've made up my mind to stay at home."

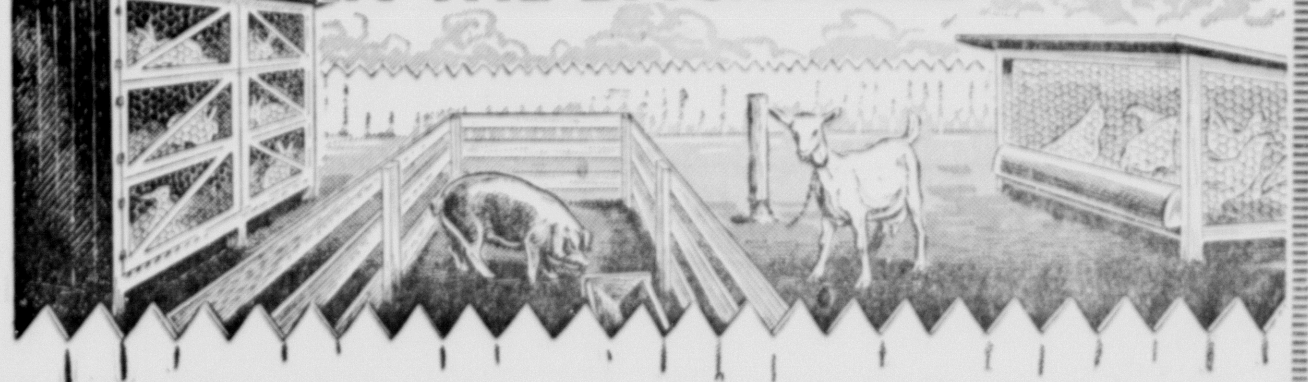

"Too late, George, I've made up my face to go out."

GOOD? IT OUGHT TO BE GOOD!

Sure, the New Phillips 66 is a swell gasoline

Why Not?

We'd be ashamed of ourselves if it *wasn't*! Since Pearl Harbor we've put every ounce of sweat and energy we possessed into perfecting the finest combat fuels the world has ever seen.

Millions of dollars worth of new equipment

...hundreds of thousands of man-hours and brain-hours... weren't spent in vain!

Good gasoline? Man, it *ought* to be good!

And if you're one of those who aren't surprised that Phillips research and Phillips know-how have produced a world-beater of a gasoline, here's a little thought you can tuck in your hatband:

The most important thing about a Phillips 66 Service Station is still the man who runs it. Yes, he can give you fine gasoline. But he'll also give the consistently high standard of thoughtful, courteous service that has always characterized the sign of 66.

We didn't forget how to deliver *that* during the war, either!

CARD OF THANKS

We wish to express our heartfelt thanks to our many friends for their acts of kindness and sympathy shown us in our hours of sorrow and for the many spiritual bouquets offered for our dear son, Wilfred. Mr. and Mrs. Henry Batenhorst and family.

People who live in today's apartment houses have little room to complain.

Remember when hankies were two for a nickel, instead of two for a dollar?

Ever stop to wonder where the taxpayer gets all the money the politicians take away from him?

A dollar is more than we want to blow in a hankie.

Pvt. Vandergriff Joins the Regular Army at Smyrna

Smyrna Army Air Field, Tenn.—At a ceremony conducted Saturday, September 22, at the Smyrna Army Air Field, Smyrna, Tenn., Private George G. Vandergriff was one of two men honored by Col. R. H. Ballard, Commanding Officer of that post. The ceremony was occasioned when Private Vandergriff and Sgt. J. B. Smith of Charlestown, Mass., were sworn into the Regular Army from their former status as soldiers in the Army of the United States. The two men were the first to be processed at the Tennessee station under the new plan of re-enlistment.

Private Vandergriff has seven years of army service to his credit, having previously served three years dating from 1936. Later in 1941 when war threatened this country he again enlisted, this time in the Air Corps. Overseas from December 1943 until June 1945, Private Vandergriff served with the Eighth Air Force. First with the 351st Bomb Group, he later was assigned to the 430th Air Service Group which was charged with the vital task of supplying the vast needs

of the Air Corps in combat. A ninety day furlough is given men joining the Regular Army from the AUS and Private Vandergriff left Saturday for Miami and Canyon, Texas, where he will spend the time with his wife and parents. On completion of that time he will report back to Smyrna AAF for re-assignment in the Air Corps.
